“My husband and I wanted to do something special for our twenty-eighth wedding anniversary, but didn't want to travel too far. We knew there are lots of resorts in Kentucky so I decided to see what was available close to home. I did a web search and literally spent weeks going back and forth trying to decide which one to choose. I kept coming back to Lighthouse Landing time and time again because I was so impressed with your website and how it portrayed your beautiful resort. The pictures left nothing to the imagination and really portrayed the kind of peaceful, beautiful setting we were looking for. Having accommodations with a view of the water was especially important to us and your cabins looked so romantic. When we arrived we were pleasantly surprised at how pristine our cabin was. There was obviously a lot of attention to detail in every aspect of it from the decor, the fully stocked kitchen, the view, and even the housekeeping. The place was spotless and you can tell you take pride in maintaining your properties. We enjoyed just lounging on the deck and watching the beautiful sailboats coming and going. It was nice to walk out to the jetty and just enjoy the view of the lake. We also enjoyed the local restaurants and shops that were within minutes of the resort. Although we opted for a more quiet time, it was nice to know there were so many things available to do it we felt inclined. I just want to say we were very impressed and have told several couples we know who like romantic getaways about your beautiful resort. And yes, we'll probably be back. Thanks for such a pleasant experience.”
Sincerely,

RV from KY on 10-21-10

G&KL from IN on 10-22-09

We live in southeastern KY and have never been to the western side of the state, my wife loves lighthouses and I was on Goggle checking where the closest one was to our state and was surprised to find out that KY is one of only a few inland states that have a lighthouse, it is a five hour drive to Grand Rivers, KY, which I also had never heard of. It is a little resort town of 300 on the shores of Kentucky Lake, the largest manmade lake in the eastern United States. Light House Landing Resort and Marina is THE show place of the town , it looks like it should be in New England, as you drive onto the property the office, boat rental, repair shop and sailing school are located to the right with some of the older cottages above them, the huge marina with 190 slips, mostly full with different length sailing yachts, a lot of them ocean going, the RV camp grounds and the newer cottages are on the left side on the marina on the hill side, this place is FAMILY OWNED and they are there running it. The cottages are FULLY furnished with EVERYTHING you could possibly need, bring your food, drinks, and charcoal because you have your own private grill right beside your front porch , they even furnish the matches!!! You see house boats and fishing boats all over on KY lakes, but you never see sailing boats and yachts all over the lake. This place is truly a hidden gem and the rates are Very reasonable, My wife said after we had left, that she had never been to a nicer place then this other then where we got married in St. Thomas, U.S.V.I. We will be back.....

DB from KY 10-6-09
